

## **Cavitation 2.0 THE BEST MACHINE ON THE MARKET TO CONTOUR YOUR BODY, GIVE YOU LUMINOUS SKIN, AND TRIM INCHES OFF YOUR WAIST!**

### **The Pinnacle of Weight Loss Technology**

#### **A FEW OF THE MANY BENEFITS OF CAVITATION 2.0:**

- **VASTLY IMPROVED DESIGN:** The 2.0 model incorporates exciting new technological advances that allow both the ultrasonic and RF frequencies to penetrate more deeply into the skin. This means that fat cells are broken down even more efficiently than before!
- **PAINLESS AND EFFECTIVE:** Focuses the RF energies on precisely the right areas of the body to ensure that treatment is safe, effective, and painless. Intelligent frequency adjustment technology means that the frequency is adjusted relative to skin temperature. This means the user won't feel hot - only a gentle warmth.
- **SPECIALIZED MODES FOR THE FACE AND EYE:** Tripolar facial lifting uses cutting-edge technology to stimulate your body's natural processes to give your skin a shimmering glow. Bipolar RF eliminates wrinkles and lifts and tightens the face. After treatment, you'll be stunned at how ravishing you look. And your face will be absolutely luminescent...making you irresistible.
- **RF FREQUENCIES FOR QUICK FAT REDUCTION:** Red laser light stimulates your body to free up the energy stored in fat reserves...endowing you with youthful energy and creating a slimmer and sleeker you!
- **PRECISION BODY AREA TARGETING:** Cavitation 2.0 advanced technology effectively works on exactly the right area of the body you want to contour and shape. This makes sure that other areas of the body aren't receiving any unnecessary treatment.

The amazing 5 in 1 Cavitation 2.0 RF Beauty Machine destroys fat cells without mercy. This device is the result of the most astonishing advances in medical science and is the next generation in body contouring technology. Cavitation 2.0 gives you the appearance you always longed for without needing to go to the gym or diet.

**It is a powerful weapon...a fat-zapping machine of the highest caliber.**

There is no better belly-fat removal machine on the market. With this treatment, you don't measure your success by how many pounds you lose...but by circumference loss.

Inches will magically vanish from your waistline...

...and each of your friends will be floored at how gorgeous you look.

You'll be elated to know that you are likely to lose 1-2 inches in the first five sessions. And, you'll also be pleasantly surprised at how little time it takes to achieve results.

I know you've been dreaming of these kinds of results for a very long time.

### **Introducing the Revolutionary Cavitation Effect**

Spending only minutes a day with this device will reward you with priceless dividends.

But when you start, do each treatment for 30-50 minutes at a time. Use the machine for one hour per day, but then wait at least 24 hours before using it again. Cavitation 2.0 is easy and safe, is non-surgical, requires zero recovery time, and you won't have to incur the wrath of your boss by taking time away from your job.

Now, let's talk about how it works.

Ultrasound, like all sound waves, is an alternation of high and low frequencies. These frequencies are beyond the range of the human ear. When you turn Cavitation 2.0 on, energy waves zero in with laser-intensity on subcutaneous cells in the fat cell membrane. This causes the quick formation of microbubbles of water vapor within the fat cells and between the spaces of bodily tissue.

Cavitation occurs when these microbubbles quickly collapse, leaving behind empty spaces where the microbubbles used to be.

**Essentially, this machine uses microbursts of ultrasonic sound waves to blast fat cells into nonexistence.**

This process forces what is left of the fat into neighboring cells and transforms the fat into proteins and glycol...

...producing an exquisite contouring of the body, and a perfect tightening of the skin.

During this process, triglycerides are liquefied as well. The powerful cavitation effect also causes water-soluble glycol to be relocated to the circulatory system, where it is burned as energy.

Think of all of the fantastic benefits of flushing all those fats and toxins out of your body!

All this intracellular drama forces collagen fibers underneath the skin to shrink. Shrinkage of these fibers causes the skin to tighten, giving your face a younger appearance. And amazingly, new collagen is produced as the metabolism of the fibroblasts is increased.

**The sum total of all this? Smoother, firmer, and more radiant skin.**

You may be asking this question right now...

How in the blazes do I **START** using this machine right this minute?

Well...the ultrasonic wand used in the cavitation stage is similar to those used in pregnancy scans, and the procedure is as relaxing as getting a deep tissue massage.

Maybe even more so.

Each treatment is super quick...taking between 20 and 60 minutes. The best thing is, Cavitation 2.0 is like owning your own little spa...no longer do you have to pay hundreds of dollars to have somebody else to do this treatment for you.

This machine will quickly pay for itself in the first couple of weeks of use.

This is by far the very best at home ultrasonic cavitation machine on the market. And there is no discomfort whatsoever after you complete the procedure...you can get up off the table afterward and still be in the mood for a swim.

To start a treatment, lie down on a table. Apply gel liberally to your body to ensure good contact between the wand and the skin. Any water-based gel will do. Next, gently move the wand over the parts of your body that need reducing.

**You will feel a pleasurable warmth as the machine does its magic.**

10 to 15 minutes per side with both the ultrasonic and radio frequencies is sufficient.

**Say Goodbye to Wrinkles**

Radio frequency waves of 1 MHZ are used after the ultrasound stage of the treatment. The RF frequencies break down any fat particles left over from the first stage.

RF energy is great at transforming the deeper dermal levels of the skin, resulting in wrinkles instantly melting away. You can use the body/face RF wand on smaller body parts to tighten and lift the skin.

And when you use the RF procedure on the face, it causes a tightening up of the collagen...your sagging skin is rejuvenated...

You'll be wowed at the vision staring back at you from the mirror...a younger, more radiant you.

Look at how you glow...you've been made jaw-droppingly beautiful...thanks to the life-changing Cavitation 2.0 technology.

**This machine has transformed you almost overnight...a thinner, sleeker, more fabulous you, and your skin has come alive in a way you've never experienced before.**

Lastly, when the radio frequency and vacuum function are used together, tissue and cell metabolism rapidly accelerate. This also increases blood circulation – an added bonus.

Cavitation 2.0 is much better than liposuction therapy because liposuction is invasive and requires a cannula to be inserted to suck the fat out.

Liposuction, unfortunately, also requires anesthesia.

The beauty of Cavitation 2.0 is it produces results similar to liposuction, but without the expensive hospital stay. When you purchase the 5 in 1 Cavitation 2.0 RF Beauty Machine, you will be getting a state-of-the-art, high-quality technological wonder that will truly make a positive difference in your life.

You owe it to yourself to buy this device, so you can immediately start to experience its power to smooth facial wrinkles and slim body fat.
